

Thank You

Ahmed Bin Futais

Difficulties I face.

My first fear was the clipping mask because i didn't know how to use it properly, after trying and exploring I knew how does it work and the main issue with me was the order of the subjects. It's either send to back or send to front.

Breif About Me!

I am Ahmed and I'm a
Multimedia Student.

I love graphic design,
exploring things,
photography and time-lapse
images.

Like a part time job, everything
is straight forward. In this
course, I learnt how to use
Adobe Photoshop, Illustrator
and InDesign.

Please enjoy my Booklet

ATTRACTIVE "PERSON"

I loved his pearly skin.

I loved his slim body.

I loved his attractive voice.

He sang to me with his mellow voice.

That was going to make me...faint.

He touched me with his naked body.

My heart was calm...felt at ease.

I love you,

SWEET PIE

When I was six, you cuddled in my bag.
You no longer fit it, but still try to creep
in. Today, I prepare for college with you
still in my arms. You have taught me
different shapes of love and strenght.
I know a magic that;s more powerful
than words.

I WANT TO BE A HUMAN

I am a bird.

I am watching humans from the sky.

I want to be a human. Because they can laugh, cry and speak in various languages. Their languages are beautiful as much as our singing. If I could become a human, I would tell them, “Your languages are great.”
